

LC 2101 - DOUBLE-ARM STEEL TOP POST

S235JR (UNI EN 10025) hot-dip galvanized steel top post(UNI EN 1461).

Features:

The top post consists in a $\varnothing 60$ mm vertical steel tube equipped with a $\varnothing 76$ lower attachment for grafting on the pole. On the central tube are welded the two $\varnothing 42$ mm arms with bushings complete with attachments for fixing the light fixtures by means of $\frac{3}{4}$ gas internal threaded holes. The whole connected by a 20x10 mm curved tie rod. Total height of the top is 946 mm, width 1500 mm. Stainless steel hardware.

Galvanized steel surface protection:

Coat of two-component zinc phosphate primer and two coats of finish with two-component paint. Standard color gray.
