

TRESTLE ATTACHMENT - LPC 300

STRUCTURE

Specific attachment for application on 4/12 mm ropes for suspended installed light fixtures. The mount consists of a central folded and shaped 440x50 mm sheet metal. At both ends is a sheet metal clamp that acts as an anchor to the rope. Centrally applied is an adjustable aluminum support for 3/4 gas connection light fixtures.

PAINTING CYCLE

Pickling and washing with demineralized water, nanotechnological process, drying at 160°C. Hand finishing with polyester powder and oven curing at 200°C (S). RAL colors on request.
